

My books are not available in libraries and/or in book and mortar stores. This is due to pricing. I had a choice to make. Charge only \$14.00 and keep your book online only... or charge \$22.00+ and have the book in libraries and bookstores. I chose the low price.

Here is a printable Book List of all my works.

I do have a library styled "lending system" available for readers. Pay \$14.00 + Shipping to read any of my books. I ship you the book. You read the book and keep it as long as you like. You ship it back, and I refund the cost of the book when I receive the book. You only pay the shipping. I only ship to the US. Sorry.
